

Franklin County Rural Water District #6

Emergency Water Supply Plan

Pursuant to the requirements of K.A.R. 28-15-18, RWD #6 of Franklin County, has complied the following information, and guidelines for the purpose of implementing an Emergency Water Supply Plan.

Section I	Purpose
Section II	Description
Section III	Disaster Organization
Section IV	Mutual Aid Agreement
Section V	Inventory of Emergency Equipment Available
Section VI	Vulnerability of System (Disaster Response)
Section VII	Water Rationing
Section VIII	Emergency Contacts
Section IX	Annual Review

Section I. Purpose

The purpose of this plan is to isolate and conserve an adequate supply of potable water during emergency conditions that will be used only to sustain human life and the lives of pets and maintain standards of hygiene and sanitation.

Section II. Description

The potable water supply for RWD #6 is obtained through ourselves.

How? We produce our own water from the Marais des Cygnes River

Where? 4713 Rock Creek Road Rantoul, KS

How much? Approximately 480,000 gallons

Storage? Two elevated towers

Boosters? Two in Rantoul (2212 Vermont Road)

Line size? Varies throughout the district

Other connections? No

Section III. Disaster Organization

A. Chairman-In-Charge Overall

1. Coordinate and direct efforts of maintenance personnel in repair of damage.
2. Establish communications within the governing body, local news media, and general public
3. Establish command post, medical post, shelters, etc. while working with the County Emergency Preparedness Personnel.

B. Districts Operator

1. Assess damages and establish communication with the Chairman and other officials
2. Notify KDHE District Engineer or Bureau of Water and request assistance as needed.
3. Oversee any repair or alterations from the source of supply to treatment and pumping to throughout the distribution system.
4. Request emergency equipment/supplies if needed.
5. Request work assistance if needed.
6. Contact Power Company as to loss of power.

Section IV. Mutual Aid Agreement

- A. Cooperative arrangement for water supply replenishing with Franklin County Emergency Preparedness Personnel. Their office will assist the water district in supplying potable water until our system is safely on line again.
- B. Cooperative arrangements for water repair parts and fitting have been made with neighboring water districts and cities if needed.
- C. Interconnection? None at this time

Section V. Inventory of Emergency Equipment Available

A. District owned equipment:

1. Backhoe
2. Tractor
3. 4 wheeler
4. Assortment of PVC pipe and fittings

B. Locally Owned equipment and supplies:

1. Pipe and fittings available from Olathe Winwater, HD Supply, & Buckeye
2. Dean's Backhoe Service
3. Cody Burkdoll
4. 2K Farms Backhoe Service

C. Equipment available through the State of Kansas

1. Chlorinators (through KDHE and KRWA)
2. Federally owned units such as portable filters plants, portable storage tanks, etc. (through Bureau of Water Supply) and National Guard.

Section VI. Vulnerability of System (Disaster Response)

A. Drought-Water Shortage-As determined by the Chairman and Operator

1. The District's regulation will go into effect regulating the non-essential use of water during an emergency upon authorization from the Chairman.
2. Public and media notification of water conservation will be relayed.
3. Attempt to obtain water from County Emergency Preparedness.

B. Accidental Spills or Contamination

1. Operator shall contact 911.
2. Operator will assess the situation and notify KDHE, Region EPA Office, or Office of Emergency Preparedness of extent of damage.
3. Establish communications through the Franklin County Sheriff's Office, fire, news media, and general public.
4. Operator shall make sure that all sources of uncontaminated water and potable water storages are full.
5. When or if hazardous substances contaminate the water supply at the well location, the Operator shall stop raw water from being pumped.
6. Utilize all gallon storage tank supply.

C. Treatment Plant, Fannies Booster Station, and River Pumps

1. Power outage due to natural or man-made disaster.
 - a. The District will try to utilize three generators and restore electricity to all three places.
 - b. Kansas National Guard, Ottawa KS 785-242-4369
 - c. Foley Equipment, Olathe KS 913-393-0303
 - d. The District will ascertain from Evergy when power will be restored.
2. Excessive damage to Water Treatment building.
 - a. Operator will assess damages and establish communication with news media and general public.
 - b. The District's regulation will go into effect regulating the non-essential use of water during an emergency upon authorization form the operator.
 - c. Upon direction of Chairman, Operator will notify KDHE and Bureau of Water of any anticipated needs
 - d. Operator will isolate distribution system and utilize water storage.
 - e. The Chairman will authorize a work force to repair damages to bring plant back on line

D. Distribution System

1. Transmission Main Damage
 - a. Isolate main and repair
2. Storage Tank Damage
 - a. The District's regulation will go into effect regulating the non-essential use of water during an emergency upon authorization for the Operator if needed.
 - b. Isolate tank by closing valve at bottom of tank.
 - c. Place needed pressure gauges and relief valves on hydrants for wasting in order to maintain a constant pressure.
 - d. Contact tower Maintenance Company.

E. Terrorist Threats

1. Notify Operator and Chairman of threat and coordinate with civil defense personnel to provide protection at POE, Booster Station, and Storage Tank.

F. Radioactive Fallout

1. Contact Office of Emergency Preparedness for information as to the possibilities of contamination to the system.
2. The District's regulation will go into effect regulating the non-essential use of water during an emergency upon authorization from the Operator.
3. Utilize stored water until system is okay for use.
